

Barath Kumar R B

Motivated and detail-oriented Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and modern frameworks like Angular and React Libraries. I'm passionate in creating responsive, user-friendly web interfaces and learning new technologies. I am eager to contribute to a dynamic development team and advance my professional development skills through hands-on experience.

WORK EXPERIENCE

Hawkeye Digitech

Front-end Developer

Jan 2024 - Present

- Created responsive and interactive web interfaces with **HTML**, **CSS**, and **JavaScript**, providing cross-browser compatibility and mobile optimization.
- Created dynamic single-page applications (SPAs) with **Angular**, including components, services, and routing for a smooth user experience.
- Integrated **RESTful APIs** for real-time data retrieval and display, as well as asynchronous actions with RxJS and Angular Observables.
- Collaborated with backend teams to create and execute API contracts, ensuring efficient data interchange.

Asst. Cinematographer

Oct 2022 - Oct 2023

- Assisted the Director of Photography (DoP) in planning and carrying out shot compositions, camera angles, and lighting settings.
- Operated and maintained camera equipment, including lenses, rigs, and stabilizers, to ensure smooth and efficient shooting.
- Lighting continuity and exposure settings were monitored throughout the sequences to ensure consistency.

EDUCATION

Sri Krishna Arts and Science College

Bachelor of Science (Computer Technology) - 7.5

June 2019 - June 2022

- Completed a Bachelor's degree from Sri Krishna Arts and Science College (SKASC) with a **7.5 CGPA**.

PROJECTS

No BrokerDeals

- I worked on a real-time project at **Hawkeye Digitech**. Using the Angular framework, I created responsive web applications using HTML, CSS, and JavaScript; I connected RESTful APIs, cooperated with backend teams to ensure seamless data flow, and used Git and GitHub for version control.

Agamudayar Sangam

- Using HTML and CSS, I designed and built an ID card and profile display interface that incorporates dynamic user data from a PHP backend for real-time displaying of tailored information.

Newspaper Ads Booking and Analysis System

- Developed a web application as part of my undergraduate degree using C# with the .NET framework and SQL Server. The system allows users to view and manage advertisement information from multiple newspaper agencies online.

Static Websites

- Developed multiple static websites using HTML, CSS, and JavaScript, and integrated dynamic data from a PHP back-end. Emphasized responsive design and cross-browser compatibility.

SKILLS

- **Front-End** - HTML, CSS, JavaScript, React Js
- **Frameworks** - Angular Js
- **Platforms** - Windows
- **Database** - MySQL
- **Back-End** - Python
- **Version Control** - GitHub
- **Others** - Adobe Photoshop , Premiere Pro
